Term 1 / Week 1 : 30th Jan 2020

**SCHOOL VISION:** East Bentleigh Primary School provides a rich, inviting, child-focused environment ensuring that all students feel safe and stimulated. Our students are able to achieve their full academic, creative and social potential, equipped for the challenges of lifelong learning. Students develop into healthy and confident individuals, actively contributing to the world in which they live.

**At East Bentleigh Primary School we are committed to child safety.**

Hello everyone,

## Welcome to the 2020 school year

We commenced this year with 430 students enrolled, with 71 of those being prep students starting their school life (*photos below*), as well as quite a few new students across the school. I visited all our classes on Wednesday to marvel at the many adventures had and at how much everyone had grown over the holidays and how healthy and happy they all were to be back at school. We have also welcomed 5 new teachers at our school who I will introduce next week in our first newsletter. As I said at our first assembly yesterday, we are in for a fabulous year this year with much to look forward to.

## Coronavirus Outbreak

As you already know, our school sent out advice via email regarding Department of Education guidelines as to the effective management of this outbreak earlier this week. This advice has now been officially updated - the latest advice is attached to this bulletin (*please see next two pages*). The new advice reflects the actions already in place at our school. Teachers will use this opportunity to remind their students about good hygiene measures in order to stay healthy. I encourage parents to also focus on this at home.

## Welcome BBQ/Picnic - Tuesday 11th February

In order to welcome in the new year and our new families this year, we will be holding a BBQ dinner in Week 3, on **Tuesday February 11th from 5-7pm**. BYO picnic rugs/baskets etc. We will supply the sausages/vegie burgers. Look out for a separate note in your child's bag next week with all the details. All are welcome to come along!

Until next .....Maria Shearn - Principal

East Bentleigh Primary School acknowledges Traditional Owners of Country throughout Australia and recognises the continuing connection to lands, waters and communities. We pay our respect to Aboriginal and Torres Strait Islander cultures and to Elders both past and present.

# Novel coronavirus (2019-nCoV)

## Factsheet for school students and children

### Last updated 29 January 2020

An outbreak of novel coronavirus (2019-nCoV) was detected in Wuhan, China in late December 2019. Cases have been reported predominantly in the city of Wuhan, in the Hubei province of China, as well as some other Chinese cities and countries, including two confirmed cases in Victoria, Australia.

### What is this virus?

Coronaviruses can make humans and animals sick. Some coronaviruses can cause illness similar to the common cold and others can cause more serious diseases, including Severe Acute Respiratory Syndrome (SARS) and Middle East Respiratory Syndrome (MERS).

The virus seen in Hubei Province, China is called 'novel' because it is new. It has not been detected before this outbreak. Most people infected live in, or travelled to, Hubei Province, China. There have been cases of 2019-nCoV reported in other Chinese provinces and other countries. It is likely that the virus originally came from an animal, and there is now evidence that it can spread from person-to-person.

### What are the symptoms?

Symptoms can include fever, cough, sore throat, or shortness of breath. Symptoms can take up to 14 days to develop.

### What if my child is well, and returning to school after being in Hubei province, China or other countries with cases in the last 14 days?

**All students and staff members who have travelled to Hubei Province, China, are advised to stay at home and avoid public settings, including attendance at schools and early learning centres, until 14 days after last being in Hubei province, China.**

Children and staff who are well and have travelled to other provinces in China, or any other areas where there have been reported cases, are NOT recommended to be excluded from schools and child care services unless the following applies:

- The person is a confirmed case of novel coronavirus
- The person is a close contact with a confirmed case of novel coronavirus in the past 14 days

### What if my child feels sick now or within 14 days of being in Hubei Province, China or another part of China?

- If your child has a cough, sore throat or shortness of breath, they must be excluded from school and be reviewed by a doctor.
- Seek medical attention but first place a mask on the student if you have one and call the doctor or hospital before you attend. Tell them your child has been in Hubei province, China, or the location of travel within China.
- When you get to the hospital or doctor's clinic, tell them where your child has travelled in China and whether this included Hubei Province. Ensure a mask is placed on your child before or as soon as you arrive at the medical facility.

If your child has severe symptoms, such as shortness of breath:

- Call 000 and request an ambulance, and
- Inform the paramedics where your child has been in China.

## How can I help prevent the spread of 2019-nCoV?

Practising good hand and sneeze/cough hygiene is the best defence. The most important actions are:

- Wash your hands often with soap and water
- Cough and sneeze into your elbow

## Where can I get more information?
